

Test Plan for SF - Agriculture

Michelsoni Mirko - Pavan Andrea - Vidrascu Adrian - Zuccolotto Devis

Introduction

This document outlines the outcome of completed system tests. Incidents, Defects and Changes that need to be made will be presented here formally.

Incident ID	1.1.1.2-A
Description	An error message flashes when a new user is added to the database
Originator	Mario Rossi-Tester
Discover Date	7/11/2020
Severity	High
Steps Required to Produce Incident	1. Go to login page 2. Click on "new partner" 3. Create new profile
Responder	Marconi class-Developer
Current Status	Close
Cause	Incident was caused due to an error in the programming code
Resolution	Debug
Address Date	09/11/2020
Creation Phase	Implementation
Detection Phase	Testing
Correction Time	30 Minute

Defects

At this time, defects that were found were labeled as incidents. Many of what we consider defects were self made defects that were hard to find but easy to correct. Incidents were found that had the opportunity of turning into defects in the system had they not been able to be corrected.

Summary

The testing procedure to date has been conducted using manual system testing and concurrent unit testing. Features tested include but are not limited to:

- Ability to add/remove users of the system (back-end) as needed

Test case: 4.3.4.1, 4.3.4.2

Further system testing will be done as newly implemented features become available. These features include all the functionality of the Administration Page which entails adding users.
