Purpose

The owners of agricultural lands that will benefit from the web application will be able to manage their fields in a simpler and more orderly way, being able to make the calculation of the agricultural yield in an easy and fast way.

The application will have a graphical interface that will help the user with the calculation of the probable agricultural yield.

Objective, Scope and Major Activities

1. **Objective:** The project will be a web application with accounts where you can view your agricultural lands. Calculation of the agricultural yield of a field knowing:
 - The surface
 - The geographic location
 - The seed that will be cultivated.
 2. **Major Activities:** Calculate the agricultural yield.
 3. **Scope:** The application will have a graphical interface that will help the user with the calculation of the probable agricultural yield.
-

Responsibilities

No responsibility because the information in the database is public and comes from cadastral databases

Time line

This MOU will be reviewed annually from the date signed. The FCC System Program Manager will be responsible for this review.
